

01 Getting Started

Overview

VoucherBank is a digital voucher redemption platform where users can redeem reward points for digital vouchers across multiple categories.

To access personalised features such as voucher redemption, shopping cart management, redemption history, and profile management, users must first create an account and sign in.

Creating an Account

New users can create an account by selecting **Sign Up** on the authentication page.

To register, users need to provide:

- An email address
- A password

After successful registration, the account is created automatically, the user is signed in, and redirected to the Home page.

Signing In

Existing users can sign in using either of the following methods.

Email and Password

Enter the registered email address and password to access your account.

After a successful sign-in, you will be redirected to the Home page.

Google Sign-In

Users may also sign in using their Google account.

If it is your first time signing in with Google, VoucherBank will automatically create a new account before redirecting you to the Home page.

Signing Out

To sign out of VoucherBank:

1. Select your profile icon in the navigation bar.
2. Choose **Logout** from the menu.
3. Confirm the logout request.

After signing out, your session ends and you are returned to the authentication page.

Accessing VoucherBank

Some features are only available after signing in.

Authenticated users can:

- Browse available vouchers.
- Add vouchers to the shopping cart.
- Redeem vouchers using reward points.

- View redeemed vouchers.
- Download redeemed vouchers as PDF files with QR codes.
- Manage their personal profile.

Users with administrator privileges can also access the Admin Dashboard to manage the platform.
