

03 Managing Your Profile

Overview

The Profile page allows users to view and update their personal information.

Users can customise their profile by uploading a profile picture and updating selected personal details.

Accessing Your Profile

To open your profile:

1. Select the **profile icon** in the navigation bar.
2. Choose **Profile** from the menu.

The Profile page displays your account information and editable profile details.

Updating Your Profile

The following information can be updated:

- Username
- Phone Number
- Address
- Profile Picture

After making any changes, select **Save** to update your profile information.

If the update is successful, the latest information will be displayed throughout VoucherBank.

Profile Picture

Users can personalise their account by uploading a profile picture.

To change your profile picture:

1. Open the Profile page.
2. Select **Choose File**.
3. Select an image from your device.
4. Select **Save** to apply the changes.

VoucherBank supports the following image formats:

- JPG
- JPEG
- PNG

After saving, the updated profile picture will appear in the navigation bar and on the Profile page.

If no profile picture has been uploaded, VoucherBank displays a default profile icon.

Email Address

Your registered email address is displayed on the Profile page.

The email address is read-only and cannot be modified.

Saving Changes

After updating your profile information, select **Save** to store your changes.

If the update is successful, VoucherBank displays a confirmation message.

If the update cannot be completed, an error message is displayed and your existing profile information remains unchanged.
